

## **Norton and Yarrow Cheese**

Fraser Norton and Rachel Yarrow were looking for a new challenge, and after hearing about an initiative called Farm Step, run by nearby environmental charity Earth Trust, they started Norton and Yarrow Cheese in 2015.

With farming in both their families and a passion for high standards of animal welfare and sustainability in farming, they produce a high quality goats cheese.

This delicious cheese is made at the Earth Trust Farm in South Oxfordshire, using unpasteurised goats' milk and traditional French methods - but with their own Oxfordshire flavour!
